## Executive Treasurer and Chairperson of Treasurer's Forum Term Report 1

---

### Preamble or background

My term of treasurer and chairperson of the treasurer's forum started on 16 March 2022.

The Treasurer is the chief financial officer of the student parliament executive committee and is at least responsible for ensuring that the financial resources of the student parliament is used in a transparent, responsible, and sustainable manner. This includes formulating and implementing policies that ensure transparent, responsible, and sustainable use of the student parliament's financial resources.

This report will entail my experiences as the holder of this position from 16 March to early April (when the first term of the 2022 University year ended).

### Activities

The main project thus far has been to create and finalise the **student parliament budget** for the 2022 financial year. This has been created, reviewed, and finalised by myself and the speaker of the student parliament (Monwabisi Petersen) and is awaiting approval from student governance.

### Opening Plenary Sitting

The first plenary sitting was held in March and was a big success. It was held in the Stellenbosch University boardroom and included the physical attendance of the student parliament executive committees from the Stellenbosch and Tygerberg campus, as well as the guest speaker (the speaker of the Western Cape Provincial Legislature, Masizole Mnqasela).

My main role before the sitting was organising food and refreshments (this included getting quotes, ordering, and picking up the food).

## **Societies' Fairs and Leadership Showcase**

One of our goals as student parliament for the year was to ensure increased engagement with the students from campus. The Leadership and Development Showcase and Senior Societies' Fairs (which were held in early April) were both great ways to lead us closer to this goal. I do however feel that we could do a few things better in the future to make us look more professional, which includes getting a gazebo, posters and maybe some refreshments for those who want to come engage with us on the day.

## **Relationship with Tygerberg Student Parliament**

At the first plenary sitting of student parliament I met and engaged with the executive treasurer of Tygerberg Student Parliament, and it was great to hear new insights about the way that she handles her responsibilities.

## **Remarks**

As seen in the preamble, my term as executive treasurer of this student parliament has not been long. However, for the short time that I have been involved, it has been an absolute pleasure to work with the people that I have been working with, including the speaker and deputy speaker. I am excited for the future and to see what we as student parliament will still accomplish in the months to come.

## **Recommendations**

I think that we as student parliament will be more efficient if we set deadlines for certain things to be handled, and also delegate effectively by who it should be done. This includes the organising of our student parliament blazers, the maintenance of the student parliament office, and also the organising of events.

## Conclusion

In conclusion, I am very happy with what has been achieved this year so far in student parliament. There has definitely been increased importance for what we do on campus, and we have definitely created a more engaging platform for students to be able to interact with us. We must however remember that our greatest fame lies not in what has already been accomplished, but rather in what still has to be accomplished – and I am very excited for this.
