A. GENERAL INFORMATION

1. To be considered for selection to the four-year BSc Physiotherapy degree programme (mainstream and extended degree programme) an applicant shall hold the National Senior Certificate (NSC), endorsed by Umalusi with admission to Bachelor degree studies, or an equivalent qualification with an aggregate of 60% (level 5) (excluding Life Orientation) and with at least 50% (level 4) for Mathematics, as well as Physical Sciences and Life Sciences.

   On account of the outstanding merit of most applicants, satisfying the minimum admission requirements is by no means a guarantee for successful selection.

2. Since approximately 25-30% of the selected applicants do not accept the selection offer, more applicants are selected initially and eventually reach the goal of 55 (mainstream programme) in total.

3. Two places at the most are reserved for applicants who meet the minimum admission requirements, and are admitted at the request of the Rector on account of extraordinary considerations (as determined by the Rector him-/herself).

4. The annual revision of the number of students admitted to the programme depends on:
   - Training capacity in terms of human resources, infrastructure and the clinical training platform.
   - Regional and national needs.
   - Enrolment planning of the University.

5. Only applicants who have indicated BSc in Physiotherapy as a first choice on their application will be considered.

6. Candidates cannot defer their selection from one year to another. If an applicant is successful, but does not take up his/her selection, such an applicant will normally have to apply anew to be considered for selection in future.

7. As soon as the final National Senior Certificate marks (or equivalent) become available in January of the following year, these marks and/or the improved NBT results are used instead of the Grade 11 marks and the original NBT results respectively, and the waiting list order is adjusted accordingly.
B. GUIDELINES FOR THE SELECTION OF PHYSIOTHERAPY STUDENTS

Applicants are considered in the three different categories as set out below.

B1. Current learners (grade 12) and applicants who have completed school (p 2 – 4);  
B2. Registered students (p 4 – 5);  
B3. Applicants with tertiary qualifications and/or work experience (p 6).

1. CURRENT LEARNERS (GRADE 12) AND APPLICANTS WHO HAVE COMPLETED SCHOOL

1.1 Selection of this group takes place at the first selection opportunity during the second semester of the preceding year.

1.2 Applicants who had matriculated longer than three years ago, cannot be considered within this category and it is recommended that they prepare themselves to be considered within category B2 or B3. Please note that selection within these categories can still not be guaranteed.

1.3 Applicants within this category (+ 42 places) are selected on the basis of academic as well as non-academic merit:

1.3.1 Academic performance at school, which constitutes 45% of the selection factor.

1.3.1.1 In the case of Grade 12 learners, the average academic percentage obtained in the final Grade 11 year-end examination is used.

1.3.1.2 In the case of applicants who have completed school, the average academic percentage obtained in the National Senior Certificate (NSC) Examination or equivalent is used.

1.3.1.3 For the selection to the mainstream programme, preference will be given to applicants who obtained an average of at least 65% in the mentioned examination.

1.3.2 National Benchmark Tests (NBT), which comprises 30% of the selection factor. The average percentage obtained in the tests will be used.

1.3.3 Non-academic merit, which constitutes 25% of the selection factor.

1.3.3.1 The non-academic merit mark is calculated on the basis of the following scale. Information is gathered by means of a structured questionnaire. The accuracy of the information must be verified by the school principal. The onus rests upon the applicant, as well as the school principal, to ensure that the information is complete and correct.
INFORMATION WITH REGARD TO MAXIMUM SCORE

- Leadership: 5
- Community service: 4
- Cultural activities: 4
- Sport: 4
- Other Extraordinary achievements: 4
- Rural origin: 4
- Language proficiency (in SA languages): 3
- Association with SU (parents/sibling(s) are alumni/current students or staff): 2
- Part-time or after-hours employment: 1

1.3.3.2 The score for each of the items is the maximum possible score. The marks are calculated according to specific and consistent criteria. Only achievements during the last 3 years at high school level are taken into consideration.

1.3.3.3 No additions or changes may be made to the non-academic merit form once it has reached the selection office. The only exceptions being marks obtained after the form has been dispatched and only if verified by the school principal, provided that the selection office receives the form not later than the end of June of the relevant year.

1.4 The selection factor is calculated by adding the academic and non-academic merit marks, as well as the NBT average in a 45:30:25 ratio. All applicants are then placed on a merit list according to their selection factor, which forms the basis for selection.

1.5 The selection process takes place as follows:

1.5.1 The top 20 applicants are selected in priority sequence according to the selection factor, irrespective of country of origin, race or any other considerations.

1.5.2 Then all Black African, Coloured, Indian and Asian applicants who qualify, will be selected until all the available places have been filled.

1.5.3 If there is still space available in the programme after all BCI applicants have been selected, applicants are then selected according to order of merit until all spaces have been filled.

1.5.4 When all the available places are filled, approximately 30 of the remaining applicants who qualify are put on the waiting list, as follows:

- The order is determined by the calculated selection factor.
- As soon as the final National Senior Certificate marks (or equivalent) become available, these are used instead of the final Grade 11 marks and the waiting list order is adjusted accordingly.
- Cancellations are replaced from the waiting list according to merit based on the selection factor and consideration of the demographic profile of the first-year intake, provided that there is place in the programme.
1.5.5 Applicants who have not yet been selected for the mainstream programme are considered for admission to the extended degree programme (EDP) provided that they comply with the criteria below. This group therefore does not form part of the mainstream programme. There are 5 places available every year for admission to the EDP.

The goal of the BSc in Physiotherapy extended degree programme (EDP) route is to improve access to students from socio-economic disadvantaged backgrounds to the physiotherapy training programme. Socio-economic disadvantage is assessed by calculating a socio-economic status (SES) factor which takes into account the following indicators: educational disadvantage (based on school quintiles and school fees), economic disadvantage (based on social or disability grants) and first-generation status (based on the educational level of the parents). The SES factor ranges from 10 (most disadvantaged) to 0 (least disadvantaged). Places are filled according to merit by applicants with a SES factor of 6 or higher. The cut-off score for the SES factor can, however, be adjusted in accordance with the profile of the application pool. Preference will be given to applicants who passed at least 2 of the NBT tests on intermediate (or higher) level.

1.5.6 The applications of initially unsuccessful applicants, who have earned significantly higher marks in the National Senior Certificate examination (or equivalent) and meet the minimum admission requirements, and/or who have improved their NBT results, will be reconsidered in January of the following year. These applicants will then be considered together with the applicants on the original waiting list, and the newly calculated selection factor will determine the order of ranking on the waiting list.

2. REGISTERED UNIVERSITY STUDENTS

2.1 Approximately 15% of the places are filled from this group and the category of applicants with tertiary qualifications and/or work experience (see B.3 below).

2.2 These places are reserved for students who follow suitable fields of study (preferably related to the natural sciences).

2.3 The following groupings of registered students are collectively considered in this category:
   - Bachelor’s students (in a 3-year Bachelor’s degree) (see 2.4 and 2.5 for exceptions)
   - Postgraduate students:
     - Honours students and final year students (in a 4-year Bachelor’s degree) (see 2.4 and 2.5 for exceptions)
     - Final-year Master’s students
     - Doctoral students completing their doctoral studies in the year in which they have applied

No pre-determined number exists for any of the above-mentioned groupings.
2.4 Registered students who follow another programme in Health Sciences at SU will not be considered.

2.5 Registered students who follow another programme in Health Sciences at another university will not be considered for selection.

2.6 A student wanting a transfer from a Physiotherapy programme at another university to the BSc in Physiotherapy at this university will be considered by the Programme Committee. Such transfers will only be granted in highly exceptional cases.

2.7 **The Selection Process takes place as follows:**

This group is selected on the basis of academic performance, as well as a few other considerations (see 2.8):

**Academic merit**
The average academic performance of registered students is determined by calculating the weighted average performance of all the years of study together.

2.8 The following **additional guidelines** also apply to this category of applicants:

2.8.1 Applications from current students who will complete their degree in the relevant year, or other students (mainly BSc students) who pass all their subjects over the specific number of years, will be considered.

2.8.2 In the case of students who complete the degree in the year concerned, preference will be given to students who complete the degree in the prescribed time, no fail comments appear on the record, and with a weighted average of at least 60% for the duration of the programme. In the case of other students, preference will be given to students who pass all their subjects with a weighted average of at least 60% over the specific number of years.

2.8.3 In the case of postgraduate students, undergraduate performance is also considered.

2.8.4 Students who are selected for BSc in Physiotherapy I could be exempted from corresponding modules which they have passed, according to certain criteria, but all the modules from which they are not exempted must be passed in order for them to be promoted to Physiotherapy II the following year.

2.9 **Registered SU students’** applications close on 30 September and are considered in early December, after the final results have become available. **Students, who do not make use of the first examination opportunity, cannot be considered.**

2.10 **Registered students’ applications, from other institutions** close on 30 June. The onus resides with the applicant to ensure that the results reach the Selections Office by no later than 1 December of the year of application.
2.11 Students are ranged in order of priority on the basis of the preceding considerations, and this serves as point of departure for the selection process. All registered students, both undergraduate and postgraduate, compete jointly for these places. Special consideration may be given to Black African, Coloured and Indian or Asian students who meet the minimum requirements described in 2.8.2.

2.12 When all the available places are filled, qualifying applicants are placed on a waiting list according to academic merit. Cancellations are filled from the waiting list according to academic merit, provided that there is place in the programme.

3. APPLICANTS WITH TERTIARY QUALIFICATIONS AND/OR WORK EXPERIENCE

3.1 Approximately 15% of the places are filled from this group, and registered University students (see B.2 above).

3.2 Selection of this group of applicants takes place at the first selection opportunity during the second semester of the preceding year.

3.3 These places will be reserved for persons with tertiary qualifications and/or work experience, and who are not enrolled for a further qualification at the time of application. Candidates who are registered for single modules at tertiary level for non-degree purposes at the time of application, may also be considered within this category.

3.4 Preference will be given to applicants who have already obtained a tertiary qualification or qualifications (at least equivalent to NQF level 7) in the normal time and with a weighted average of 60% or more and who have included a motivational letter with the application.

3.5 Although these applicants are selected according to academic, as well as non-academic merit, they are not selected according to the same formula as that used for current learners. A shortlist of meritorious applicants is then compiled after the consideration of all applications within this category.

3.6 A final selection of applicants on the shortlist will be made after a personal interview.

3.7 Invitation to an interview is by no means a guarantee that an applicant will be selected.

C. SELECTION OF BLACK AFRICAN, COLOURED AND INDIAN OR ASIAN APPLICANTS

1. The Faculty of Medicine and Health Sciences, in consultation with the Vice-Rector (Learning and Teaching) annually determines enrolment targets that are aligned to, inter alia, the guidelines of the National Department of Higher Education and Training for transformation of the higher education sector and the subsequent institutional enrolment planning, as well as the University’s commitment to inclusivity and diversity.
2. In the case of current learners, the selection factor is calculated according to the same formula described in B1. It is taken into account that selection will not be based solely on the 45:30:25 formula, as some applicants may not have had all the opportunities for non-academic achievements.

3. Students who are initially selected for the mainstream programme, but whose progress is unsatisfactory, based on their first semester final marks are identified and invited to apply for joining the extended degree programme (EDP). However, in exceptional cases the Selection Committee may select students directly for the EDP from the onset.

4. Black African, Coloured and Indian or Asian students who do not meet the minimum admission requirements may still be admitted to the programme on the basis of a good performance in the NBT and at the discretion of the Faculty Board.

D. TAKING THE NATIONAL BENCHMARK TESTS (NBT)
1. All current learners or applicants who have completed school (B1), who apply for admission to BSc in Physiotherapy, irrespective of the percentage or total they obtained in the Grade 11 or 12 examinations, must take the NBT. The average percentage of these tests counts toward 30% of the selection factor.

2. The tests will be conducted countrywide at various centres.

3. Prospective Health Sciences students must write the NBT before the closing date which is determined annually (see www.maties.com) by registering (at least 3 weeks before the test date) at www.nbt.ac.za to secure a place at the relevant venue.

4. Prospective students must write all tests on the same day.

5. If an applicant makes use of more than one opportunity to write the NBT during the same year, the results available by the end of July will be considered for selection in the second semester; the NBT results available by the end of December will be used in January in conjunction with the NSC results for selection from the waiting list.

6. Registered university students (B2) and applicants with tertiary qualifications and/or work experience (B3) are exempted from this requirement.

E. FOREIGN NATIONALS
1. Such applicants will not be considered.
2. Applicants with official refugee status must be considered according to law. Only SA citizens qualify for institutional bursaries and loans, as well as NSFAS funding. Applicants with refugee status therefore need to keep their financial position in mind when taking up a place in the Physiotherapy programme.
F. PROCEDURES TO BE FOLLOWED FOR THE SELECTION PROCESS

1. APPLICATION FORMS

1.1 Applicants can apply electronically at www.maties.com

1.2 The closing date for submitting applications, including the non-academic merit questionnaire, for consideration during the initial selection process, is 30 June of the year that precedes registration.

2. PROCESSING OF APPLICATIONS

2.1 A complete database of each applicant is compiled based on the information captured by the applicant on the online application form. At the same time, the current learners’ or applicants who have completed school’s (B1) marks are processed electronically.

2.2 The questionnaires on non-academic merit are checked and the marks are calculated as indicated in B.1.2.3. The marks are also captured and, together with the school marks, as well as the average of the NBT marks, are processed on computer in order to determine the final selection factor. (The selection factor is used to determine an applicant’s position on the merit list).

2.3 The academic records of registered students (B2) as well as those of graduates (B3), are processed by hand and an average percentage is calculated. These students are then considered on the basis of academic performance, although non-academic merit may also be taken into consideration in the case of graduates (B3).

2.4 It is expected of applicants to provide an undertaking that all information provided is accurate. In the event that it should be discovered that a selected applicant has provided false information or has withheld information, he/she might forfeit their selection.

3. SELECTION OPPORTUNITIES

3.1 The first selection takes place during the second semester of the previous year. On this occasion current learners and applicants who have completed school (B1), as well as applicants with post-school experience and/or post-school qualifications (B3) are considered. The selection of the latter applicants (who are put on a short list) is only finalised after interviews with the members of the Selection Committee (see B3.3.3 and B3.3.4).

3.2 The applications of registered students (B2) are only considered after their final university results have become available in December.

3.3 Scimathus students are considered in January in the same category as applicants who have completed school (on the basis of their new selection factor).
3.4 Further selection from the waiting list takes place continuously, depending on cancellations received and available places in the programme.

3.5 Selection is finalised two weeks after the commencement of the first semester classes for Physiotherapy I.

4. SENDING OUT SELECTION LETTERS

4.1 After the selection meetings, applicants are informed electronically of the selection results.

4.2 Selected applicants must respond within 4 weeks from mailing the selection letters, stating whether or not they accept the offer.

4.3 If they accept the selection offer, the prescribed selection deposit is due. The amount will be to the student’s credit. Applicants who accept their selection offer, pay the prescribed selection deposit and afterwards cancel their selection of their own accord, will not be refunded their selection deposit.

4.4 The places of applicants who do not respond to the offer and who cannot be reached administratively, will be cancelled.

5. APPLICANTS WHO NO LONGER MEET THE ADMISSION REQUIREMENTS AFTER THE FINAL NATIONAL SENIOR CERTIFICATE RESULTS HAVE BECOME AVAILABLE

5.1 Applicants who obtained provisional acceptance during the first selection round and who do not meet the minimum requirements with their final matric results, will forfeit their selection and the selection deposit will be refunded.

5.2 The applications of Black African, Coloured and Indian or Asian applicants who forfeit their selection can be reconsidered at the discretion of the Faculty Board on condition that satisfactory results were obtained in the NBT.

G. COMPOSITION OF THE SELECTION COMMITTEE

The Selection Committee comprises the following members:

- Dean: Faculty of Medicine and Health Sciences
- Vice Dean: Learning & Teaching, Faculty of Medicine and Health Sciences (Chairperson)
- The Vice Dean: Social Impact & Clinical Services, Faculty of Medicine and Health Sciences
- Head: Division of Occupational Therapy
- Head: Division of Speech-Language and Hearing Therapy
- Head: Division of Human Nutrition
- Head: Division of Physiotherapy
• Director: Ukwanda Centre for Rural Health
• One member of the MB,ChB Selection Committee, appointed by this committee.

April 2017
