

# MScAgric in Agronomy

## **Programme Code**

2731011

## **Specific Admission Requirements**

- An applicable four-year BScAgric degree (NQF level 8).
- An average final mark of 60% for all final year subjects.
- A mark of more than 60% for the scientific aptitude test.

## **Duration of Programme**

This programme extends over a minimum of one year but may take longer to complete.

## **Programme Content**

Research on a particular aspect of tillage, weed control, crop production, stress physiology, vegetable production or pasture management is undertaken. The modular component of the programme is aimed at the acquisition of generic research skills to support the research component of the programme. A further objective is the deepening of subject knowledge on general crop physiology through self-study.

## **Compulsory Module**

55565: Agronomy	818(180): Master's thesis
11061: Biometry	811(8) or 821(8): Biometrical applications

## **Assessment and Examination**

After completion of the research you must submit a thesis to the satisfaction of the examiners and present a seminar. You will be expected to defend your thesis during this seminar.
