

PhD in Plant Pathology or PhD (Agric)

Programme Code

5471001 or 274100

Programme Description

You must carry out a relevant and practically oriented research project in Plant Pathology, leading to innovation or problem-solving through high-level research in Plant Pathology and in the industry concerned. The research project will equip you at the highest academic level with the knowledge and expertise you need for entering the research industry or professional field. See section 2.4 in this chapter for general information on the PhD degree in the Faculty of AgriSciences.

Programme Content

Compulsory Module

| | |
|------------------------|---------------------------------|
| 32891: Plant Pathology | 978(360): Doctoral dissertation |
|------------------------|---------------------------------|

Assessment and Examination

After completion of the research you must submit a dissertation to the satisfaction of the examiners and present a seminar. You will be expected to defend your dissertation during this seminar.
