*For students with degrees from other universities*

If you obtained a degree from another university, which is equivalent to the BAcc or BAccLLB, you can contact the School of Accountancy for the specific admission requirements.

If you have a degree from an international university, you will not be admitted directly to the programme. In that case, you must first supplement certain undergraduate modules. You can request more details from the School of Accountancy.

## **Selection**

Selection is done strictly according to the admission requirements.

## **Application procedure and closing date**

Apply at [www.sun.ac.za/pgstudies](http://www.sun.ac.za/pgstudies). The closing date for applications is **31 October** of the year before your intended studies.

## **Duration of programme and starting date**

*Duration:* One year, full-time.

*Starting date:* The Accountancy Research Assignment module begins in mid-January. There may also be a compulsory induction programme before classes officially start.

## **Assessment and examination**

Compulsory examinations for all the modules (see the table of modules below) are written in October, except for the module Research Assignment: Accountancy. The Research Assignment: Accountancy module is assessed as a whole on an ongoing basis. Tests and assignments (if any) that are assessed on a continuous basis supplement the final performance mark for all the modules. You must pass all the compulsory modules in the same academic year in order to pass the programme. If you do not pass the programme after the examination, you may possibly be admitted to the supplementary examination in one or more modules for which an examination was written. The supplementary examination is written in November.
