Postgraduate Diploma: HIV/AIDS Management in the World of Work

Enrol today for the most comprehensive international training programme in HIV/AIDS management in the world of work – the only qualification of its kind.

This highly successful Postgraduate Diploma (PGDip): HIV/AIDS Management, endorsed by many organisations and international agencies, is presented by Stellenbosch University in South Africa. Thousands of students from more than 40 countries have completed this programme over the past 21 years.

The PGDip: HIV/AIDS Management equips those in the world of work with the essential skills and know-how to develop and manage policies, programmes or interventions to drive the response on HIV/AIDS, as well as related diseases such as Tuberculosis. On successful completion, this qualification leads to a Master's Degree and PhD.
