

## 5.3.9 Master of Occupational Therapy

### Specific admission requirements

- A four-year B degree in Occupational Therapy or an equivalent qualification approved for such purpose by Senate.
- For direct admission to the Master of Occupational Therapy degree programme (thesis option), you must have completed an approved curriculum of research methodology and/or advanced study at this University or elsewhere.

### Application procedure and closing date

Apply online at [www.maties.com](http://www.maties.com) by **30 September** of the previous year. Applications for prospective international students close on **31 August**.

Senate, or the Executive Committee acting on its behalf, will decide if you may be admitted to the programme.

### Programme description

The programme aims to:

- equip you with advanced knowledge in order to develop an understanding of the theory pertaining to the profession of occupational therapy
- ensure mastery of the profession by means of the analysis of new information and the application thereof to address problems and challenges within the profession;
- educate you in research methodology, thereby enabling you to perform advanced and independent research that will culminate in the publication of articles;
- prepare you to undertake further studies; and
- qualify you as a professional who will competently advance Occupational Therapy.

You can follow one of two streams for the Master of Occupational Therapy programme, namely:

- Master of Occupational Therapy (structured option); and
- Master of Occupational Therapy (thesis option).

The two streams are discussed separately in more detail below.

### Enquiries

Programme leader: Dr S de Klerk

### 5.3.9.2 Master of Occupational Therapy (thesis option)

#### Duration of programme

The programme extends over a minimum of one academic year.

#### Programme description

This programme choice consists of a thesis only. The thesis contains the results of independent research on a topic you choose in consultation with the head of the Division.

#### Programme content

Thesis	895(180)
--------	----------

#### Assessment and examination

- The thesis integrates a comprehensive literature review, data collection and analysis, discussion of results and recommendations.
- The study is presented in a thoroughly conceptualised, well-formulated, logical and coherent document.

You must obtain a mark of at least 50% to pass the thesis.

# Postgraduate programmes

For more specific information on the Faculty's postgraduate programmes, consult the University's webpage on Postgraduate Studies (<http://www.sun.ac.za/english/pgstudies/>) or the various departmental websites.

## 1. Programme offering

The following postgraduate diploma and degree programmes are presented by the Faculty of Medicine and Health Sciences:

<b>Postgraduate Diplomas</b>	<b>Abbreviation</b>

Master of Science	MSc
Master of Speech-Language Therapy	MSpeech
Master of Therapeutic Nutrition	MTherNutr
<b>Doctoral Degrees</b>	<b>Abbreviation</b>
Doctor of Philosophy	PhD
Doctor of Science	DSc

## 2. Commencement of postgraduate studies

As postgraduate student you must register for your particular programme at the start of the academic year. The only programmes that still take on students at the start of the second semester are MMed programmes. If you are accepted for an MMed programme, you will be able to register at the start of the second semester. You can submit a request for exclusion from this rule to the Vice-Dean: Learning and Teaching, with special motivation.

### **3. Recognition of prior learning and credit accumulation and transfer (RPL&CAT)**

Consult the RPL&CAT guidelines of the Faculty of Medicine and Health Sciences for more information on the procedures and guidelines regarding the recognition of prior learning and credit accumulation and transfer in the Faculty. These guidelines are available at [www.sun.ac.za/tygststudentadmin](http://www.sun.ac.za/tygststudentadmin) under "Policies and Guidelines".

### **4. Class fees**

From 2010 class fees for all structured M degree programmes will be levied per module. Until further notice the class fees for MMed programmes will be levied per annum, as in the past, with the exception of the class fees for the MMed (Fam Med) programme which will be levied per module.

The class fees for the research modules within the structured M degree programmes will be spread over two years (70% of the class fees in the first year of registration and 30% in the second year) to prevent you from having to pay the full amount for two consecutive years. If you complete your research module within one year of study, you will therefore pay only 70% of the class fees for the specific module. But if you fail to complete the research module within the prescribed two years, you will pay, as of the third year of study, the full amount for the module.

If you register for a research master's degree, you must pay the full amount in the first year of study with a continuation levy in the second and third year. However, in the fourth and following years of study the continuation levy will double.

### Disclaimer:

The content above comes from the 2025 Medicine and Health Sciences Yearbook. Make sure to consult the full **Medicine and Health Sciences Yearbook** to see this extract in context and to check if there have been any changes. Take special note of additional information in the yearbook under section **1. Programme offering**.
