

5.3.3.5 MPhil in Child and Adolescent Psychiatry

Specific admission requirements

- One of the following qualifications:
 - a Master of Medicine in Psychiatry;
 - a Master of Clinical Psychology;
 - a fellowship of the College of Psychiatrists of South Africa; or
 - an equivalent qualification approved by Senate for this purpose.
- Registration as specialist psychiatrist/clinical psychologist with the Health Professions Council of South Africa.

Application procedure and closing date

Apply online at www.maties.com by **30 September** of the previous year. Applications for prospective international students close on **31 August**.

Duration of programme

The programme extends over two years. You must work in clinical practice with predominantly child and adolescent clientele.

Programme description

The teaching and learning strategy in each module is determined by the nature of the subject. Modules are presented within the framework of a student-centred approach with the purpose of stimulating critical thinking. The programme uses didactic methods, interactive learning, group sessions and supervised clinical work. Independent learning is encouraged. The research assignment is completed under the guidance of a supervisor.

Programme content

First year

Ethics	873(5)
Ethics and Legislation	871(5)
Developmental Psychiatry	871(10)
Clinical Child Psychiatry	871(40)

Second year

Compulsory modules

Consultation/Liaison Psychiatry	871(15)
Research Methodology and Project	871(70)

Elective modules

Substance Abuse in Young Patients	871(15)
Forensic Child Psychiatry	871(15)
Infant and Toddler Mental Health	871(15)
Advanced Paediatric Psychopharmacology	871(10)
Paediatric Neuropsychology	871(10)
Advanced Child Psychotherapy	871(10)

Assessment and examination

- Flexible assessment is applicable to all modules and you must pass each module with a minimum mark of 50%.
- You must keep a log-book as record of clinical exposure.
- If you fail a module, you may repeat the assessment which has contributed to the final mark for the module. Whether the topic and nature of the assessment remain unchanged or you are required to take an amended assessment, is left to the discretion of the module chair.
- If you fail a theory module, you may repeat it. If you, however, fail the module for the second time, you may be denied the right to attempt the module again on recommendation of the Faculty Board.
- If you do not show adequate clinical and/or professional progress (as outlined in the module/programme guide), you will be afforded an opportunity to remediate your inadequate clinical and/or professional conduct or performance. If you fail to remediate, you may only repeat the module or continue with the programme on recommendation of the departmental programme committee and the approval of the Faculty Board.
- You must submit a satisfactory research assignment demonstrating your ability to conduct an independent scientific investigation, to interpret the results and to make deductions from the results.
- The research assignment is assessed according to the guidelines of Stellenbosch University and a minimum of 50% must be achieved to pass.
- The final mark is calculated according to the credit weights of the individual modules.
- You must obtain a final mark of at least 50% to pass the programme.
