

## Data bundles for students during lock-down conditions

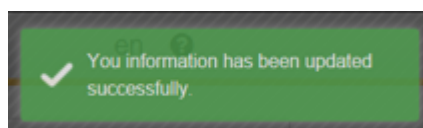

SU will purchase data bundles for students, that are valid in South Africa only, from MTN, Vodacom, Telkom\* and CellC for 2020. (This is not available to students at the Military Academy, still staying in University residences, or registered for short courses or postdoctoral studies.) *To qualify for one of these data bundles* you have to confirm your cell number on your “Personal Details” page at [update your contact details here](#). You must confirm any changes by clicking on “Update Information” at the bottom of the page. Also, check that the notice reflects the date on which you updated, as shown below:

A rectangular button with a dark red background and white text that reads "Update Information".

### Notice

This information was last confirmed as to be correct on 08 May 2020

The system will briefly display this confirmation message at the top of the page:

***We will forward only cell numbers that have been confirmed since 15 May 2020 to the mobile network operators for data bundles to be loaded. NB: You have until 22 June 2020, 08h00 to confirm your cell number. If your cell number is unconfirmed by 22 June 2020, 08h00, you will not receive a data bundle for July. No exceptions can be made.***

According to the agreement with SU, the mobile network operators will load the following bundles:

10 gig daytime data – 20 gig Night Owl data

- \* Please note that Telkom does not have network coverage everywhere in South Africa. If your connection indicates

Telkom-R

on your cellphone, it means that your connection is via a Telkom roaming partner network. It may therefore take a bit longer to load the data bundle.
