

4.1.14 MCom (Quantitative Management)

Admission requirements

- A BComHons (Quantitative Management) degree or a qualification considered by the Senate to be of equal standing.

Note: The BComHons (Quantitative Management) has been phased out. Consequently, there is no intake for the MCom (Quantitative Management) in 2023. The listing here is only to provide for students still enrolled for the MCom (Quantitative Management).

Selection

The number of students selected can be influenced by, for example, staff capacity and the availability of resources within the Department, as well as academic merit and University transformation objectives. As staff capacity and resources can fluctuate from year to year, the number of students selected can also differ from year to year.

Should the number of applicants that meet the admission requirements exceed the available capacity of the Department, the criteria in the admission requirements will be used to rank the applicants in order of suitability, and to finalise the list of selected applicants.

Application procedure and closing date

Apply at www.sun.ac.za/pgstudies. For South African applicants, the closing date is **31 October** of the year before your intended studies, and for international applicants, it is **30 September**.

Duration, offering type and starting date of programme

Duration: A minimum of one year, full-time.

Starting date: At the latest, one week before the other classes at the University begin.

Programme's mode of delivery

Fully contact (face-to-face).
